

Welcome To iTech University Seminars Presented by iTech Tool Technology Inc...
Product Identification and Process Solutions

Pocket guide
to product identification

Learn the fundamentals of direct part marking and the importance of traceability in the manufacturing process:

- What Can You Mark?
- Unique Part I.D
- Permanent Marks vs Labels
- Machine Readable Marks
- Controlled Inventory
- 2D Matrix vs 1D Barcodes
- U.I.D (Universal Identification)
- Industry Standards For I.D
- Cradle To Death Product Traceability

All participants will receive a pocket guide and certificate of achievement upon completion. **This seminar is approximately 1- hour long and is presented free of charge by iTech Tools.** Seminar can be held onsite or at our head office in Winnipeg.
